

# Microsoft Outlook

## ❖ Setting Mail Server Authentication

Klik **Tools** → Klik **E-mail Accounts...**

The screenshot shows the Microsoft Outlook interface. The 'Tools' menu is open, and 'E-mail Accounts...' is highlighted. The main window displays an inbox with several emails, and a preview pane shows the content of a selected email.

## ❖ Setting Mail Server Authentication

Klik

More Settings ...

The screenshot shows a window titled "E-mail Accounts" with a close button and a help icon. The main heading is "Internet E-mail Settings (POP3)" with a sub-note: "Each of these settings are required to get your e-mail account working." There is an envelope icon in the top right corner.

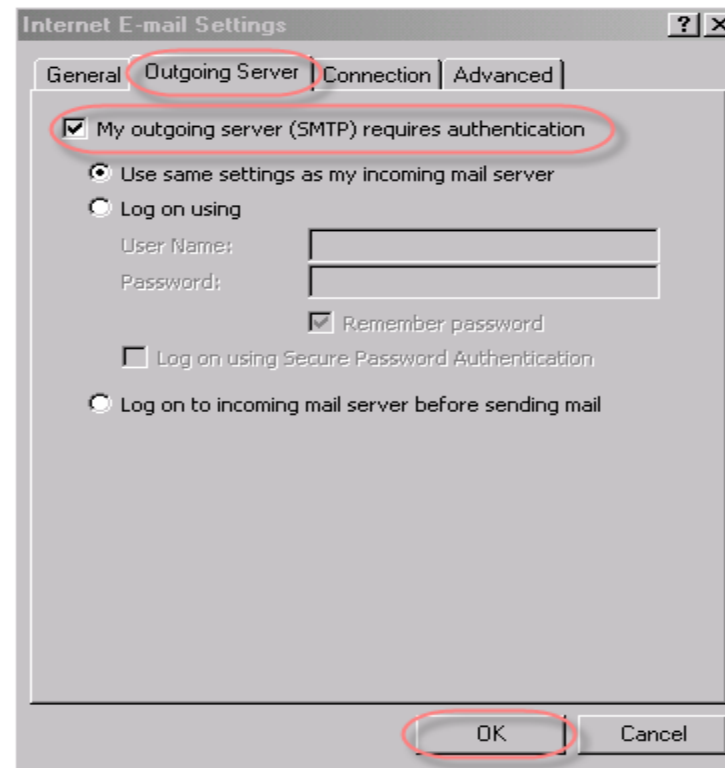

The settings are organized into four sections:

- User Information:** "Your Name:" with the value "Suci Hartanti Utami" and "E-mail Address:" with the value "shartanti@rpxholding.com".
- Server Information:** "Incoming mail server (POP3):" with the value "mails.rpxholding.com" and "Outgoing mail server (SMTP):" with the value "smtp.rpxholding.com".
- Logon Information:** "User Name:" with the value "shartanti", "Password:" with masked characters "\*\*\*\*\*", and a checked checkbox for "Remember password". There is also an unchecked checkbox for "Log on using Secure Password Authentication (SPA)".
- Test Settings:** A text instruction: "After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)" and a button labeled "Test Account Settings ...".

At the bottom right, a button labeled "More Settings ..." is circled in red. At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

## ❖ Setting Mail Server Authentication

Klik **Outgoing Server** → Fill My outgoing server (SMTP) requires authentication with  → Klik **OK**

## ❖ Setting Mail Server Authentication

Klik

**E-mail Accounts** [?] [X]

**Internet E-mail Settings (POP3)**  
Each of these settings are required to get your e-mail account working.
