

CARA MENGGANTI PASSWORD EMAIL RPX DI WEBMAIL

1. -Buka  Internet explorer atau  Mozilla Firefox
-Kemudian masukkan alamat <http://webmail.rpxholding.com>
-Maka akan muncul tampilan dibawah ini,

- Masukkan email address/account dan password email anda
- Klik Login

2. -Lihat  pada inbox , kemudian pilih option-Account administration

Personal Information This contains personal information about yourself such as your name, your email address, etc.	Display Preferences You can change the way that SquirrelMail looks and displays information to you, such as the colors, the language, and other settings.
Message Highlighting Based upon given criteria, incoming messages can have different background colors in the message list. This helps to easily distinguish who the messages are from, especially for mailing lists.	Folder Preferences These settings change the way your folders are displayed and manipulated.
Index Order The order of the message index can be rearranged and changed to contain the headers in any order you want.	Account Administration This option provides access to account management interface.
Message Filters Filtering enables messages with different criteria to be automatically filtered into different folders for easier organization.	Unsafe Image Rules Set up rules about how unsafe images in HTML messages are handled.
NewMail Options This configures settings for playing sounds and/or showing popup windows when new mail arrives.	SpellChecker Options Here you may set up how your personal dictionary is stored, edit it, or choose which languages should be available to you when spell-checking.

- Kemudian masukan password webmail/email anda

Account Administration
